FARM FRESH PRODUCE

locate farm fresh produce

Visit [www.localfarmlink.com](http://www.localfarmlink.com)  
to check our farm's stock on-line.

The screenshot shows the LocalFarmlink website interface. At the top, the user name is 'freddy' with links for 'LOG OUT', 'FARM MAINTENANCE', 'STOCK STAND', 'HELP & INFORMATION', and 'HOME'. The main header features the LocalFarmlink logo and the URL 'LOCALFARMLINK.COM'. The central 'LOCALSEARCH' section displays a satellite map with three farm locations marked: 'LFL' (LocalFarmlink Headquarters), 'SDA' (Snapdragon Acres), and 'HRA' (Howard Road Apples). The map includes navigation controls and a scale bar. Below the map, there is a warning: 'IF MAP IS NOT YOUR AREA! Click on Farm Maintenance and check your town, state/province and country.' and a note: 'If address is good visit our [geolocation tool](#) and follow the instructions.' The left sidebar contains a 'Message to Farmers' section, 'Farms Included' filters (All, Local, Organic), 'Produce Type' filters (Berries, Veggies, Fruit, Meat, Other), an 'Update Map' button, 'Farms Displayed' (LFL, SDA, HRA), and 'Produce Available' (Apples, Beets, Pumpkins). The right sidebar features a 'help feed the hungry. GIVE ... FREE Rice' campaign with a link to 'Request to advertise your important cause here Free of Charge'. The footer contains contact information for the Site Administrator and a copyright notice for Practifab Inc. 2007.
